

“Weather” you know or not... Classroom temperature is a hot topic!

How can you measure the temperature of this classroom?

ID 204222246 © Sonyaillustration

True or False

**Computer Science
can help us
answer this
question?**

Learning Target: #2

Students will successfully learn how a microbit works and how to code a microbit

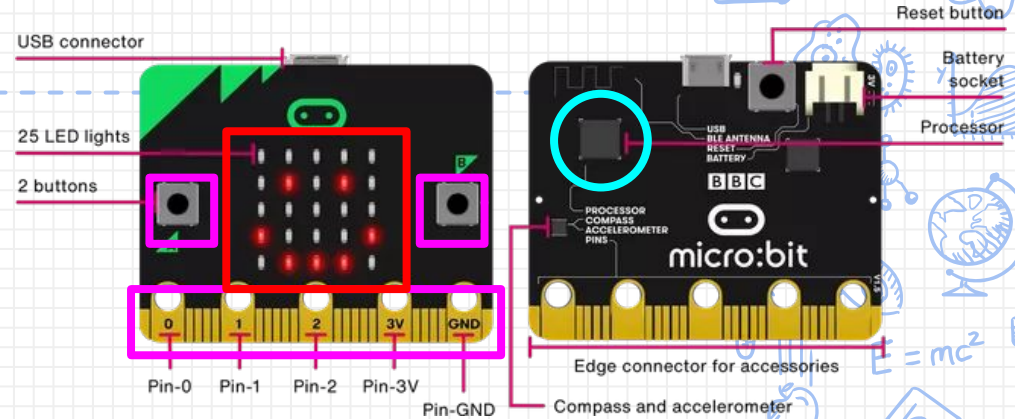

Computing Systems

1. Receive input (stimulus) from the world
2. Process input / information
3. Respond to input / information
4. Generate output (response) to the world

Foundations of Computing Systems

Main Operations

Cross-Disciplinary Connections

Let's dive in to see what the processor (the brain) can do!

- Programmers / Programming: Use Existing Instructions to Control Processor/Brains
- Computer Scientist / Science: Create New Instructions / Optimize Instructions ...

More step by step slides
here for how to actually
do the work.

THIS IS JUST MY DRAFT!!!!!!!!!!!!

Why would anyone care what the temperature of this classroom is?

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

Instructions for use

EDIT IN GOOGLE SLIDES

Click on the button under the presentation preview that says "Use as Google Slides Theme".

You will get a copy of this document on your Google Drive and will be able to edit, add or delete slides.

You have to be signed in to your Google account.

EDIT IN POWERPOINT®

Click on the button under the presentation preview that says "Download as PowerPoint template". You will get a .pptx file that you can edit in PowerPoint.

Remember to download and install the fonts used in this presentation (you'll find the links to the font files needed in the [Presentation design slide](#))

More info on how to use this template at www.slidescarnival.com/help-use-presentation-template

This template is free to use under [Creative Commons Attribution license](#). You can keep the Credits slide or mention SlidesCarnival and other resources used in a slide footer.

In two or three columns

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

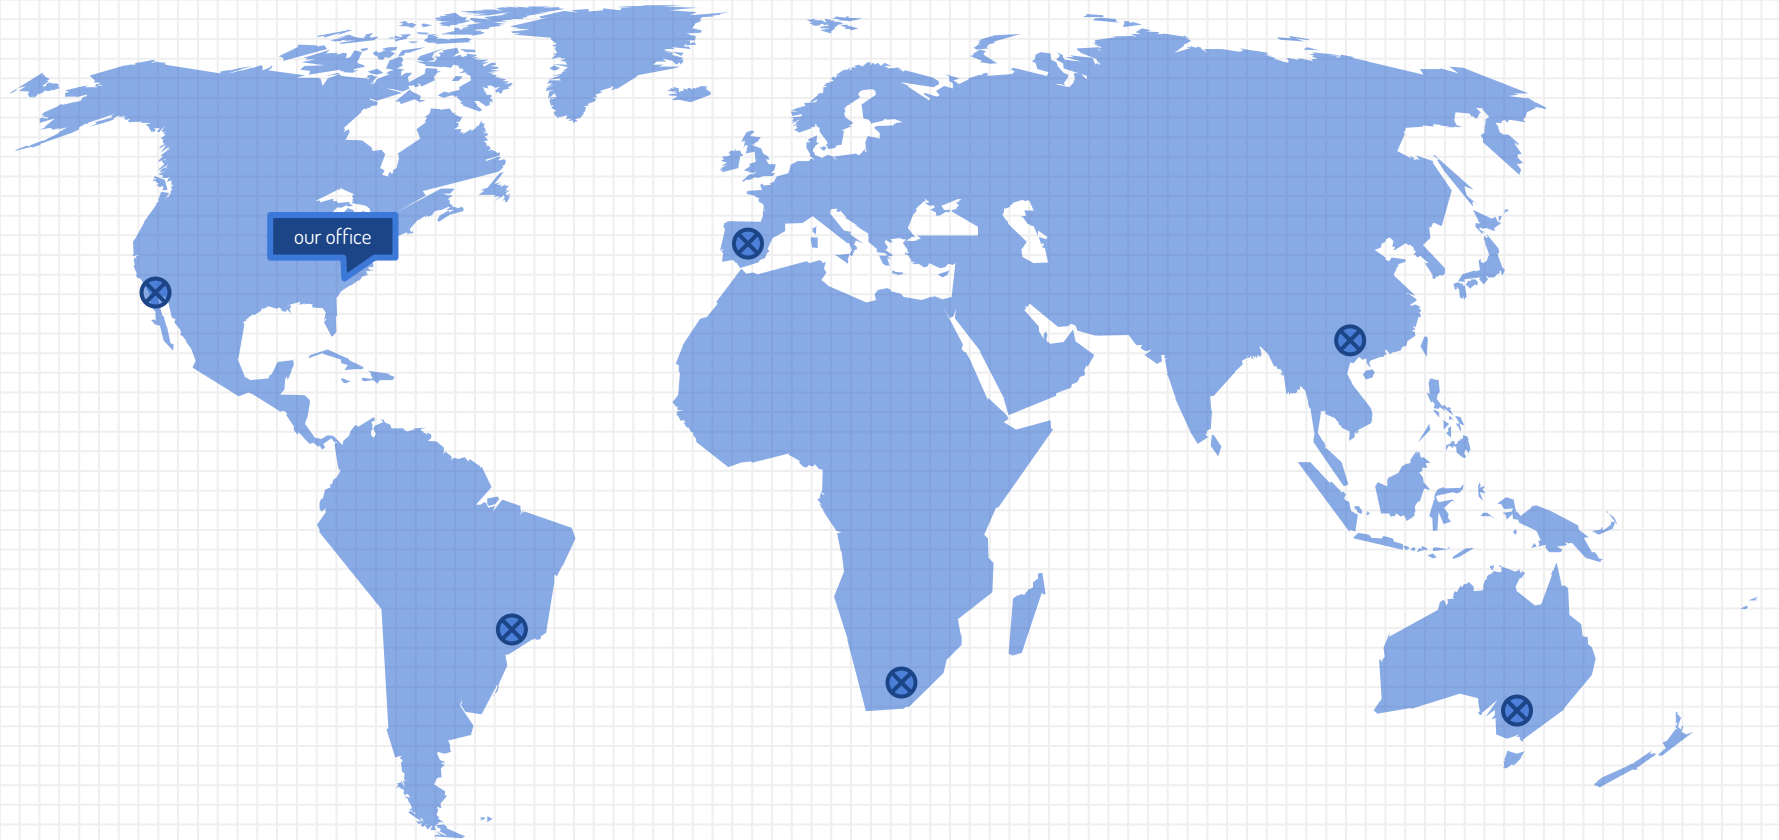

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

Want big impact? Use big image.

Maps

A decorative border of various science and math icons surrounds the page. In the top-left corner, there is a Bohr model of an atom, a beaker with a chemical reaction, the formula H₂O, a square root symbol √2, a hand holding a pencil, a globe, a rocket, and a molecular structure. In the top-right corner, there is a calculator, a hexagonal molecular structure, a globe, a power plug, a cell, a book, a star, and a test tube with a plant. In the bottom-left corner, there is a lightbulb, a brain, a molecular structure, an abacus, a graph with axes labeled x and y, a test tube, and the formula E=mc². In the bottom-right corner, there is a magnet, a hexagonal molecular structure, a test tube with a drop, a planet, a rocket, a DNA helix, a star, a square root symbol √2, and the formula H₂O.

SlidesCarnival icons are editable shapes.

This means that you can:

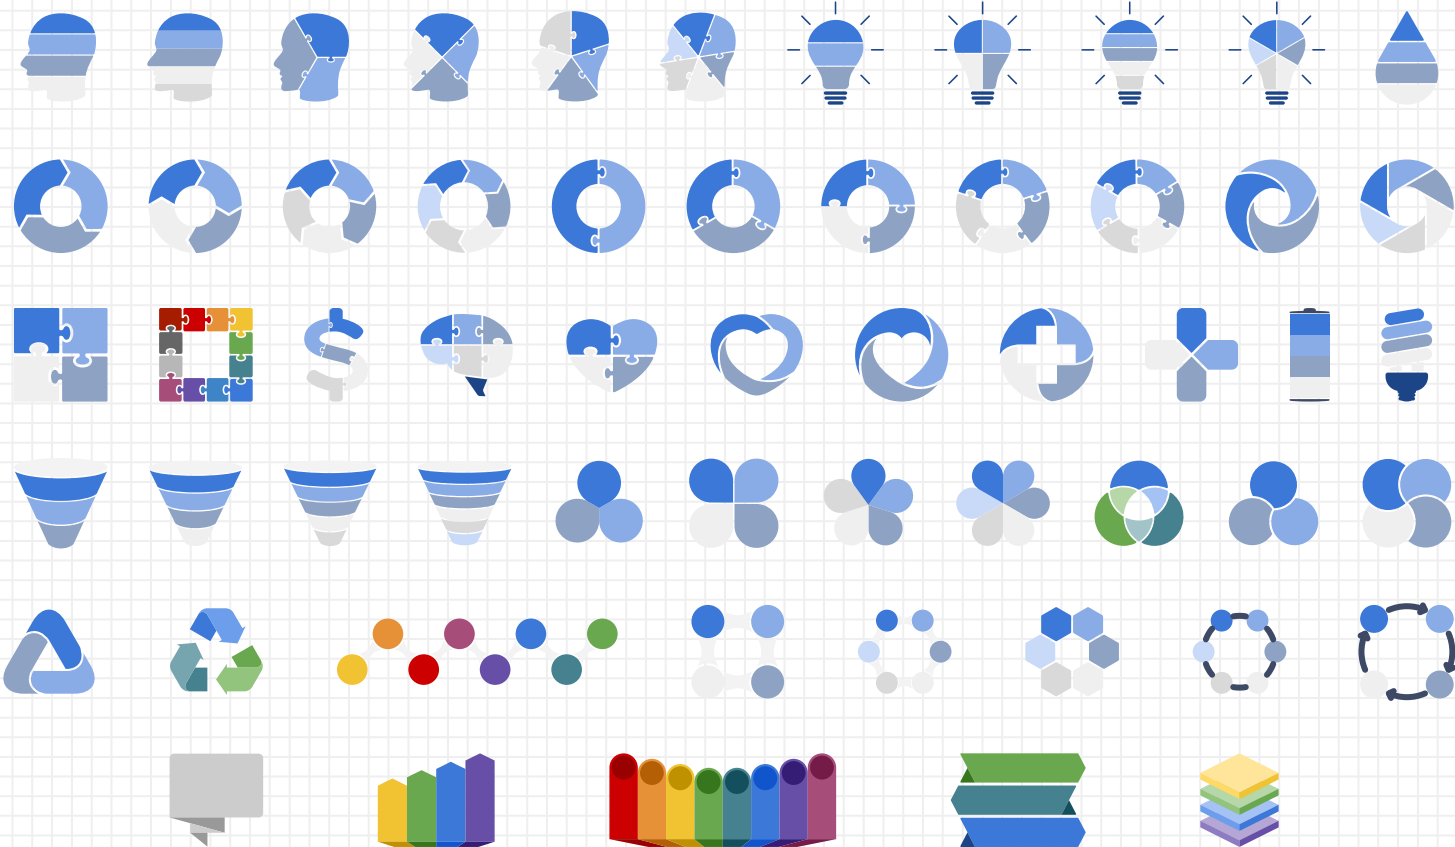

- Resize them without losing quality.
- Change fill color and opacity.

Isn't that nice? :)

Examples:

Diagrams and infographics

You can also use any emoji as an icon!

And of course it resizes without losing quality.

How? Follow Google instructions <https://twitter.com/google/docs/status/730087240156643328>

and many more...
